

International Seminar on Bioenergy

6th May 2010

Rēzekne, Latvia

Agenda

9:00 – Welcome

9:10 – Dagnija Blumberga, Ilze Dzene, Francesco Romagnoli (Riga Technical University)
Using biomass in Latvian energy sector. Analysis of target

9:30 – Luis Vargas (University of Chile)

Trends in Biofuels in LatinAmerica: A Green Future

9:50 – Daumants Znatnajs (President of Latvian Fuel and Bioenergy Association)

Biofuel as Latvian challenge in the economic breakdown

10:10 – Kerstin Kuchta (Hamburg University of Applied Sciences)

Waste to Energy

10:30 – Coffee Break

11:10 – Aleksandrs Adamovičs (Latvian Agricultural University)

Agro biotechnologies and biomass production for energetic

11:30 – Julia Gottwald (Hamburg University of Applied Sciences)

Success factors for EU project proposals

11:50 – Daniels Turlajs (Riga Technical University)

Efficiency of Biomass gasification

12:10 – Sandis Gedrovics (“Viessmann” representative)

Solar collectors and its practical implementation

12:30 - Discussion

13:00 – Lunch

14:00 – Edgars Čubars, Gotfrīds Noviks (Rēzeknes Augstskola)

Reeds as natural renewable energy resource in Latvia

14:20 – Armine Abrahamyan (Rēzeknes Augstskola , Armenian State Agrarian University)

Renewable energy sources and its development possibilities in Armenia

14:40 – Artis Teilāns (Riga Technical University)

Using simulation modeling in renewable energy sector

15:00 – Edmunds Visockis (Rēzeknes Augstskola ,Latgale Sustainable Development Research Institute)

Effectiveness of thermal energy consumption

15:20 –Q&A. Discussion

16:00 – Closure of the conference
